GRAND CHUTE FIRE CELEBRATES NATIONAL EMS WEEK

Recognizes Responders Efforts, Service Upgrade

GRAND CHUTE – In support of National EMS Week, the Grand Chute Fire Department will seek to educate the public on our role in the provision of emergency medical services, while also recognizing our personnel’s commitment to providing the highest level of care to those we are honored to serve. Our responders have been proudly providing patient care since 1999, and recently increased their level of service to the Emergency Medical Technician status expanding their ability to perform critical lifesaving skills when every second counts.

The fire service has a rich history of protecting the health and safety of our communities through an all-hazards response model that includes the delivery of emergency medical services. Your Grand Chute Firefighters are trained and equipped to provide timely, high quality emergency medical response and patient care. These Firefighter / EMTs respond quickly, professionally, and compassionately in our community, and they do so every day.
