

**TOWN OF GRAND CHUTE
RESOLUTION SD3-07-2020**

A RESOLUTION OF THE SANITARY DISTRICT NO. 3 COMMISSION OF THE TOWN OF GRAND CHUTE, OUTAGAMIE COUNTY, WISCONSIN ESTABLISHING A CONNECTION IMPACT FEE FOR THE PENNINGS POND

WHEREAS, a specific duty of the Sanitary District Commission is levying a connection impact fee on property in the district for regional ponds to recover a part of a project's capital cost; and

WHEREAS, it is necessary to establish a connection impact fee as a one-time charge to a developer, property owner, or other MS4 permitted entity that desires to use the Pennings Pond to satisfy one or more stormwater management requirements.

WHEREAS, Impervious Area Method is identical to the ERU method that is adopted by the Sanitary District #3 Commission; and

WHEREAS, Impervious Area Method involves fewer calculation and considers land use.

NOW, THEREFORE, BE IT RESOLVED BY THE SANITARY DISTRICT #3 COMMISSION OF THE TOWN OF GRAND CHUTE, that the connection impact fees for the Pennings Pond be based on impervious area at a rate of \$6,129 per acre of imperviousness for the Pennings Pond and a rate of \$3,755 per acre of imperviousness for parcels west of McCarthy Road to utilize the storm sewer. Parcels west of McCarthy Road are to pay both fees for a total of \$9,884 per acre of imperviousness.

Date introduced, approved and adopted this 1 day of December, 2020.
